

Come to the Local 804 Meeting — Sunday, April 20 at 10 am

Vote Yes!

Support Bylaws Changes that Will Put Contract & Pension Information in Your Hands

In 2006, we were blindsided with pension cuts.

In 2007, we were blindsided by a weak contract and more pension cuts.

Now, members are uniting so we are never blindsided again.

Local 804 members will vote at the April general membership meeting on bylaws changes that will put more pension and contract information in the hands of the membership.

Two thousand Local 804 members signed petitions in support for these positive reforms.

Now it's time for us to finish the job by turning out at the membership meeting on Sunday, April 20 at 10 a.m.

The first bylaws change will require the Local 804 Executive Board to include a report on the Pension and Health and Welfare fund at every general membership meeting.

A second change mandates Local 804 to set up a Contract Committee to inform and mobilize members when our new contract is being negotiated.

Putting information in the membership's hands gives us the power to win better contracts and benefits.

We proved this last year when the *Make UPS Deliver* information campaign helped us unite to vote down UPS's weak contract offer.

As a result, we stopped more benefit cuts and won some contract improvements.

Information PLUS Mobilization EQUALS Power. It's time to put that formula to work again in Local 804.
